

Aerospace Module Three

Crossword Puzzle

Across:

- 3 A measure of molecular motion expressed on a man-made scale
- 5 A boundary between two air masses
- 6 A parcel of air is holding as much water vapor as it can

Down:

- 1 Total energy of all molecules within a substance
- 2 Scale for estimating wind speed
- 4 The process of converting water vapor to liquid

- 7 general term given to various types of condensed water vapor
- 8 Deflects a freely moving object to the right in the Northern Hemisphere
- 9 Method by which the sun heats the Earth
- 10 Huge body of air with the same temperature and moisture characteristics
- 11 Tiny droplets of liquid water in contact with the surface
- 12 The temperature at which air becomes saturated
- 13 The movement of the Earth around the sun
- 14 The spinning of the Earth about its axis
- 15 Air in motion
